About

After more than 15 years in banking field, I decided to shift my career and start over in web development.
2 years ago I started as Tester, by qa-ing HTML emails, online messages, websites. After dealing with many bugs I became interested in solving them and decided to learn coding.
1.5 years later I joined the HTML Email developers' team, where I build emails with HTML and CSS, and edit images with Adobe Photoshop.

Work Experience

888Sparkware — Aug 2021 - Present

HTML Email Developer

- Develop HTML emails and client communications (online messages) using **HTML, CSS.**
- Perform thorough QA to ensure campaigns are executed to perfection, including proper rendering across all major devices and email clients.
- Edit images in **Adobe Photoshop.**
- Update content in Marketing automation tool.
- Act as focal point for B2B - US unit.

888Sparkware — Mar 2020 - Aug 2021

Marketing Delivery Tester

- Testing HTML emails and other campaign communications to make sure all aspects are functioning properly for the best user experience
- **Improving the workflow** between owners, developers and qa by establishing a template with all necessary information/materials and making sure they are provided from the beginning, togheter with **implementing and monitoring** the impact.
